

Table of contents

S. No.	Title of papers and author (s)	Page
1.	Processing, storability, physico-chemical properties and human health benefit of edible oil: A review Ratnesh Kumar, Suresh Chandra, Samsher, Vikrant Kumar, Kapil Kumar and Sunil	668-679
2.	Biological roles and applications of urease – A review Sandeep Kumar	680-689
3.	Chemical composition, Functional properties and performance of soybean and wheat flour blends in instant fried noodles Peter Isah Akubor and Taibat Oluwaseun Fayashe	690-699
4.	Antioxidant and structural analysis of polysaccharide extracted from <i>Clitocybe maxima</i> Stipe using ultrasonication: simulation and validation K. Thirugnanasambandham	700-708
5.	Screening of rapeseed-mustard varieties against mustard aphid (<i>Lipaphis erysimi</i>) Nand Kishor Maurya, Rajendra Singh, Joginder Singh, Rashmi Nigam Wajid Husan and Anant Kumar	709-716
6.	Stability analysis of wheat (<i>Triticumaestivum</i> L.emThell) genotypes under different eco-systems R. K. Gupta and Rashmi Nigam	717-721
7.	Influence of sub-lethal concentrations of crude oil on tomato yield and quality Johnson Odukoya, Ronnie Lambert and Ruben Sakrabani	722-733
8.	Study about the depletion of nutrients (NPK) by weeds in mustard Jaibir Tomar and Rashmi Nigam	734-737
9.	Physicochemical and organoleptic olive oil characterization of three Algerian varieties extracted by three processes Ghaoues Souheila and Namoune Hacène	738-744
10.	Status and problems of apiculture in Baghpat District of Uttar Pradesh-A Survey Pukhraj Singh, Rashmi Nigam ¹ , Nitin Kumar Nagand and Lalit Kumar Verma	745-747
11.	Rainfall frequency analysis of Nainital District (Uttarakhand) Mahendra Rai, R.K. Mehta, R.B. Gautam and K.K. Maurya	748-752
