Table of contents

S. No.	Title of papers and author (s)	Page
1.	Chemical Composition, functional and biscuit making properties of tomato peel flour Peter Isah akubor and Abubakar Usman Owuse	874-884
2.	Milk improves cholesterol homoeostasis by protecting liver against oxidative damage in hypercholesterolemic rats Sunita Meena, Yudhisthir Singh Rajput, Rajan Sharma and Raghvendar Singh	885-893
3.	Structured mathematical algorithm for surface temperature estimation based on satellite imagery Daniel Parkash Kushwaha, Tarate Suryakant Bajirao and Ram Kumar	894-902
4.	Fuzzy controller based performance analysis of brushless DC motor, utilizing matlab simulink environment. Ankit Rawat and Gaurav Kumar	903-912
5.	Seasonal changes in water quality index at different sites of Gomti river, Lucknow Nimisha Srivastava and R.C.Arya	913-916
6.	Pyrolysis of coconut shell to produce crude oil Rahul G. Bhad, Sejal R. Sedani And Snehal N. Dongerdive	917-922
